

THE UNIVERSITY OF SCRANTON

PANUSKA COLLEGE OF PROFESSIONAL STUDIES

COMMUNICATION SCIENCES AND DISORDERS

About the Program

The bachelor's degree in communication sciences and disorders (CSD) is centered around the basic science of human communication – including biological, physical, social and linguistic aspects. Students develop an understanding of what happens when communication is impaired, and then they learn how to treat those impairments.

Outcomes & Opportunities

- Students can complete their Bachelor of Science degree in a 3-year accelerated format or 4-year traditional format.
- During the spring semester of the third year, students (in the traditional 4-year track) would have an opportunity to study abroad if they wish.
- Students are prepared for admission to a graduate degree program in Speech-Language Pathology or Audiology, or for advanced study in related disciplines such as counseling and human services, education, health administration, health informatics or physical therapy.
- Speech-language pathologists and audiologists work in many different settings including, research, education and health care.
- According to the U.S. Bureau of Labor Statistics, there are many positive aspects of the job outlook for speech-language pathologists and audiologists, including high earnings and growing opportunities.
