

THE UNIVERSITY OF SCRANTON
COLLEGE OF ARTS & SCIENCES
SOCIOLOGY

About the Program

Sociology majors explore human behavior as it relates to social interaction with individuals, social groups and social institutions like the family, the workplace and government. Sociologists study and understand how various areas of inequality influence these interactions within the larger social structure.

Outcomes & Opportunities

- Many sociology students have internships at local government agencies. Some internship sites include Colormark LLC, Mid Valley High School and United Neighborhood Centers.
- Students enter the workforce armed with practical skills and experience. Almost any job that deals with interpersonal skills can benefit from a sound sociological background.
- Depending on your interests, some examples of jobs include sociologists, counselors, researchers and social workers.
- You'll find Scranton graduates working for a wide range of companies and organizations, including Invisible Children and the Jesuit Volunteer Corps.
- Many sociology majors choose to earn advanced degrees at universities including Western New England University, Montclair State University, Molloy College, Temple University, SUNY University at Buffalo and Marywood University.

¹ In the cognate Social Science electives, the department recommends a mix of Human Services, Criminal Justice, Political Science and Psychology electives, especially PSYC 224 - (S) Personality and Individual Differences.

² Department recommendation: The sociology internship may be taken in either the junior or senior year, or both (not to exceed a maximum of 6 credits of internship).

³ Students in the five-year College of Arts and Sciences M.B.A. program should take the series of 1-credit M.B.A. prep courses here. Students considering this CAS/MBA program must take MATH 108 and any prerequisites before the last semester of the senior year.

⁴ The selection of a First Year Seminar is likely to fulfill requirements both for the First Year Seminar and a General Education Requirement. Thus, the First Year Seminar will not add to the total credits for the semester. Talk with your advisor if you have any questions.
